## 1951 VEGETABLE SEED OFFER

### Delivery After 1951 Harvest

Subject to the usual growing contract conditions and our confirmation. F.O.B. New York, containers extra.

**CELERY, EMERSON PASCAL -** A new cross between Fordhook and Danish type with great resistance to blight. Since it will not have to be sprayed, we believe this celery will replace the standard Eastern varieties. Our stock seed was released by Cornell through the N. Y. Foundation Stock Seed Cooperative. Our plantings for 1951 crop are in excellent shape. Our prices are reasonable.
